

PRINCE ASHVINKUMAR PATEL

B.Tech Computer Engineering | CSPIT, CHARUSAT

princepatel98798@gmail.com | +91 9974638984 | github.com/Prince94-p | [LinkedIn](#)

EDUCATION

Chandubhai S. Patel Institute of Technology (CSPIT), CHARUSAT

Bachelor of Technology — Computer Engineering Expected Graduation: 2029

CGPA — Semester 1: 6.63 | Semester 2: 7.23

SKILLS

- **Frontend:** HTML, CSS, JavaScript, React, Vite
- **Languages:** C, C++, Java
- **Tools:** Git, GitHub
- **Currently Learning:** Data Structures & Algorithms in C++
- **Concepts:** Object-Oriented Programming (C++), REST APIs, JWT Authentication

PROJECTS

ScamShield — AI-Powered Scam Detection App | React, Vite, Framer Motion, React Router, Node.js, Express, JWT

- Built as part of Team HackX at Hacksagon 2026 (National Level Hackathon, ABV-IIITM Gwalior); finalist among 2100+ registered teams
- Developed the React frontend — landing page, authentication flow, and a real-time threat dashboard — along with parts of the backend API using Express and JWT-based authentication
- Built core features including AI-driven text/SMS/email scam analysis with a live risk score, a URL safety checker, and a "ScamBait" AI chatbot that engages scammers to waste their time

CodeMentor — Coding Practice Platform | React, Vite, JavaScript, CSS

- Built a LeetCode/HackerRank-style coding practice platform front-end from scratch using React and Vite
- Designed and implemented the UI for problem listings and the coding workspace, focusing on clean component structure and responsive layout

ACHIEVEMENTS

- **Finalist — Hacksagon 2026**, a National Level Software & Hardware Hackathon at ABV-IIITM Gwalior; selected among 2100+ registered teams as part of Team HackX (April 2026)
- **1st Runner-Up — ICT Project Exhibition**, Department of Computer Engineering, CSPIT, CHARUSAT (November 2025)

CERTIFICATIONS

- **Object-Oriented Programming Specialization** (5 courses) — Coursera, Goldsmiths, University of London (March 2026)
